

Single Project

Single project

Quantum Web is one of our projects. We collaborate with this company for many years and we are happy to introduce our projects we successfully completed.

Quantum Web

This company specializes in technical innovations and producing different technical novelties. Their target audience is youth and all people who are keen on technologies . We already created many project together, starting from creating branding identity and ending SEO copywriting services.

Branding | e-Commerce website design | Marketing

Task

We needed to create branding strategy for their inner corporate use and for their personnel. Our best designers worked on this project and managed to create recognizable style, being coupled with corporate style.
